

12 reasons why there has to be the DRV

1. The DRV's breed standards are consequently aimed at the breed of healthy dogs. We don't talk about health - we make it!
2. The DRV will apply for the admission to the IFR and will cultivate a relation based on partnership with all other IFR members. Together we will encourage and promote our breed!
3. The DRV will react flexibly on sociopolitical demands of Rottweilers' breed. This is how we will achieve a sustainable improvement of the image of our breed.
4. The DRV reacts on the changing picture of a working-dog und aims at alternatives. To define a dog only by the work in section C is too short-sighted and absolutely outdated.
5. The DRV has a democratic constitution and encourages its members to participate in decision-making. We aim at avoiding resignation and unhappiness.
6. The DRV avoids concentration of power and offers the right to object for each member. Criticism is explicitly welcome!
7. The DRV's managing board respects members' decisions and statutes. There are no politics in an overbearing manner!
8. The DRV has visions and these visions will be realized. The general assembly is not hindered by block construction and is open for ideas and proposals. Everyone is involved.
9. The DRV stops the monopoly position of one single union. A Monopoly position means damage, competition means encouragement!
10. It is just great to be a DRV member!
11. The DRV welcomes all friends of Rottweilers and thus will gain new friends for the breed!
12. With professional competence and commitment for our Rottweiler, he will survive also in Germany and Europe. This is what we would like to demonstrate.
